

Implementing Interprofessional Education

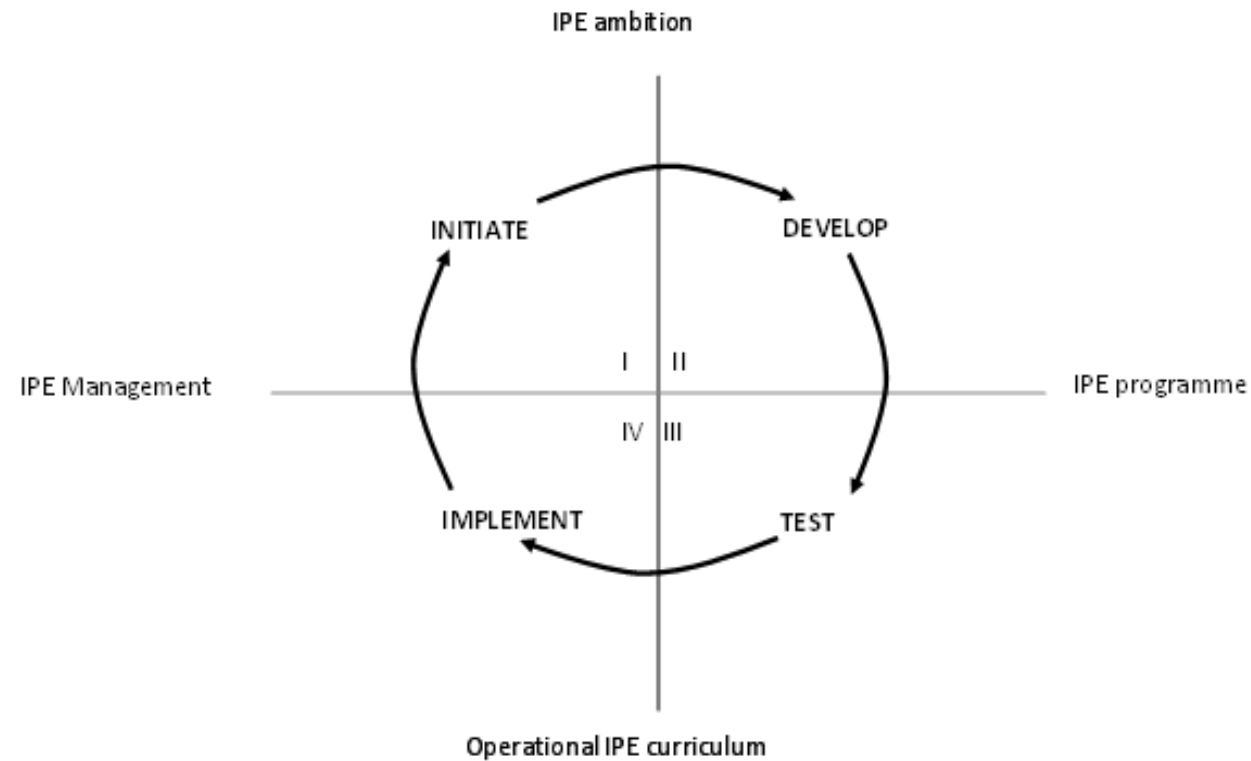

John de Best, MSc & Noor Christoph, PhD

representing the AMSTERDAM steering committee on **IPE**

l.h.christop@amc.nl & j.b.n.de.best@hva.nl

Best practices from the AMSTERDAM IPE programme

AS THE CROW FLIES 

INITIATE: the first steps [2014 onwards]

Partners

- Amsterdam University of Applied Sciences – Faculty of Health Nursing, Physiotherapy, Occupational Therapy, Exercise Therapy
- Academic Medical Centre – UvA– Faculty of Medicine Medicine

Strategic Ambition

Realizing a shared programme for interprofessional collaboration in all years of the health curricula of the AUAS FoH and AMC FoM

INITIATE: Transition management team

Evolving towards a cross-institutional steering committee with clear roles 'n responsibilities and ditto decision making structures

DEVELOP: Adopting IPP competency framework

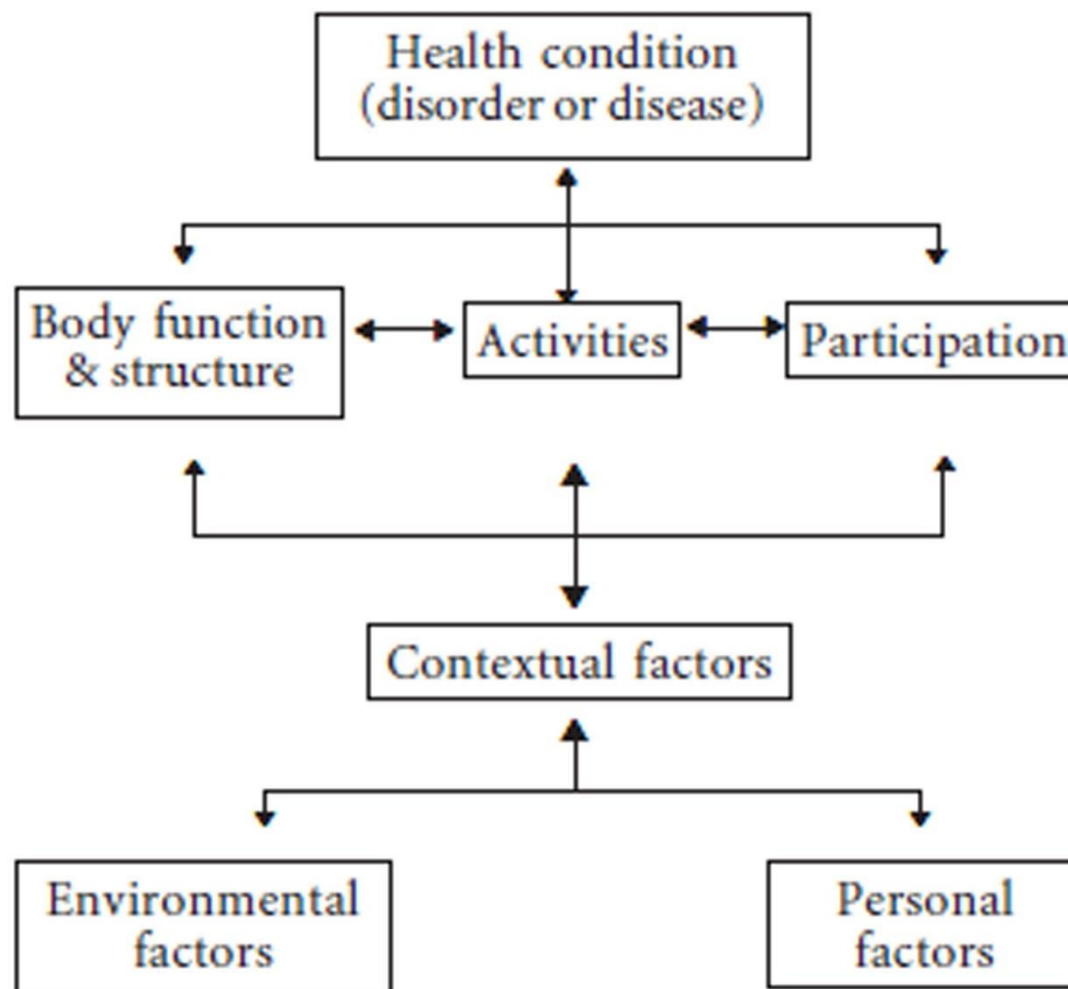

AMSTERDAM IPE programme

Y4 e.v.	“TOGETHER”	Leadership & conflict mediation
Y2 + 3	“WE”	Team functioning
Y1	“I”	Roles & responsibilities
Y1-4		Interprofessional communication

Thistlethwaite et al., (2014). Competencies and frameworks in interprofessional education: a comparative analysis. Acad Med 89(6): 869 – 75.

l.h.christop@amc.nl & j.b.n.de.best@hva.nl

DEVELOP: ICF: One language for all professions

DEVELOP: Educational rationale

**Constructive
Alignment**

**Boundary crossing &
perspective taking in
action**

Vuurberg et al (in progress). Systematic Review of the effectiveness of learning approaches integrating interprofessional education

Miller & Boix Mansilla (2004). Thinking across perspectives and disciplines. Project report 27. Harvard University.

DEVELOP & TEST: vision in action

- Autumn 2015: Developing an interinstitutional module
 - Interprofessional team of teachers (IPE facilitators)
 - Co-development of simulation training
 - Creating fictitious patient case including role descriptions, vignettes, videos
 - Teachers as role models
 - Performance based assessment (shows how: ICAR)
- Spring 2016: Pilot project 1: testing the simulation training
 - 36 students
 - 4 meetings
 - Student remarks
- Spring 2017: Pilot project 2: testing the implementation of the simulation training
 - Implementing the training in existing infrastructures of 5 curricula (assessment policies, scheduling, use of one shared electronic learning environment, recruitment of teachers)

Dare to live Agile
*Or how to get things
done with style*

TEST & IMPLEMENT: Communities of practice

IMPLEMENT: Practice what you preach
